

PADI ADVANCED OPEN WATER DIVER COURSE

Learn to feel more comfortable in your underwater environment! Our PADI Advanced Open Water Diver course is the perfect option for those wanting new underwater dive skills such as peak perfection buoyancy, search and rescue and deep diving! The skills you will learn in this course are important to have and the certification can be completed in just a few easy steps. You will complete two core dives; the Deep Adventure Dive and the Underwater Navigation Dive. You will receive training in three elective dives and be on your way with your new certification!

Why Advanced Open Water?

A better understanding of yourself in the underwater environment enhances your enjoyment for the sport. After your five Advanced Open Water Dives you will have learned new underwater dive skills and feel much more comfortable while scuba diving. You will complete the PADI Adventures textbook at home and complement it with the unique PADI DVD experience. On the first day of training, your PADI instructor will review the dives and distribute equipment. Everyone will then meet at the lake to complete your core and elective dives.

What do I need?
